The mobile office for Notebook and printer

Functional case made of aluminum for all commonly used Notebooks and printers from Canon and HP. The stable case and the floor cushioning in the Notebook compartment guarantee maximum protection for the mobile computing equipment. The Notebook is removed from the case for use, while the printer remains in the case on the floor (Floor to Desk Principle). It is fastened to the front lid, and this is simply opened for printing. Documents and power supply units are neatly stored in separate compartments. The cabling is within the case and the power supply is provided via the multiple plug delivered with the case. There is additional storage space for mobile accessories in the workstation located in the front cover of the case. An optional feature is Quickfix, the exactly fit holding device for Canon and HP printers.

Particularly stable case. floor cushioning of the Notebook compartment. power supply section. workstation with compartments for mobile accessories. document compartment. lid of the case can be opened. internal cabling. multiple plug.

Optional accessories (not included in the scope of supply)

The custom-designed printer holder "QuickFix" is optionally available.
